WHENEVER YOU NEED
A GENERAL TONIC - TAKE GROVE'S

The Old Standard Grove's Tasteless chill Tonic is Equally Valuable as a General Tonic because it Acts on the Liver, Drives Out Malaria, Enriches the Blood and Builds up the Whole System. For Grown People and Children.

You know what you are taking when you take Grove's Tasteless chill Tonic as the formula is printed on every label showing that it contains the well known tonic properties of QUININE and IRON. It is as strong as the strongest bitter tonic and is in Tasteless Form. It has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Bilioussness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A True Tonic and Sure Appetizer. A Complete Strengthener. No family should be without it. Gas anted by your Druggist. We mean it. 50c.

THICK, GLOSSY HAIR
FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and luxuriant at once—No more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

Until the Plumber Arrives.

While waiting for the arrival of a plumber, when the water pipes have sprung a leak, the housewife may do a little repairing herself. The water should be turned off and a solder made by mixing some whiting with common yellow soap and just enough water to form a thick paste. Apply this mixture to the leak and in a little while the water may be turned on very slowly. This solder may last a day or longer.

A VALUABLE SUGGESTION
Important To Everyone

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder trouble, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp Root.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Birmingham, N. Y., and enclose 10c; also mention the Earlinton Semi-Weekly Bee.

Slight Mistake.

"I understand you went over to Crimmon Gulch and lynched the wrong man?" "No," replied Three-Finger Sam. "You can't lynch the wrong man in Crimmon Gulch. We just got Pluta Pete a little bit ahead of his turn."

Declare War on Colds

A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

- "Don't sit in a draughty car."
- "Don't sleep in hot rooms."
- "Don't avoid the fresh air."
- "Don't stuff yourself at meal time. Overeating reduces your resistance."
- To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all Dealers.

Figures of Speech.

That the "pen is mightier than the sword" is amply proven in the recent purchases of an old book for \$50,000 and the saber of Napoleon for \$65.—Salt Lake Herald.

Cause of Insomnia

The most common cause of insomnia is disordered of the stomach and constipation. Chamberlain's Tablets correct these disorders and enable you to sleep. For sale by all Dealers.

Church Notes

Christian Church
Sunday School assembly at 9:30 A. M. Frank D. Rash, Supt. Preaching Service begins promptly at 10:30
Subject of the morning service, "What do I mean to the church?"
Evening Service, 7:30 There will be music by the large chorus. All are always welcome.

Oh! You Have Such Beautiful Hair

What a pleasant thing to have said to you! And why shouldn't it be? You who envy others their lovely hair, and are ashamed of the dull lifeless, stringy appearance of your own—use Harmony Hair Beautifier, and let others envy you.

This delightful liquid seems to polish and brighten the hair, giving it that burnished lustrous look you have so often wished it might have, adding to its softness making it easier to put up and "stay up"—making it more attractive and beautiful in every way. It overcomes the unpleasant, oily smell of your hair, leaving a dainty, rich rose perfume that will delight you and those around you. Very easy to apply—simply sprinkle a little on your hair each time before brushing. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of the hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Can't harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston where the many celebrated Harmony Perfumes and Toilet Preparations are made.—St. Bernard Mining Co. Incorporated Drug Department.

Forced Sale.

"How did you manage to keep a cook in the country, Mrs. Welloff?" "By making the house over to her and moving back to the city."

Nearly Every Child Has Worms

Paleness, at times a flushed face, unnatural hunger, picking the nose, great thirst, etc., are indications of worms. Kickapoo Worm Killer is a reliable, thorough medicine for the removal of all kinds of worms from children and adults. Kickapoo Worm Killer in pleasant candy form, aids digestion, tones system, overcoming constipation and increasing the action of the liver. Is perfectly safe for even the most delicate children. Kickapoo Worm Killer makes children happy and healthy. 25c. Guarantee. Try it. Drug stores or by mail. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

Improving Coffee Flavor.

Adding a pinch of salt and piece of butter, size of a bean, to coffee will make the flavor much better and also settle the coffee.

ANSWER THE CALL
Earlington People Have Found That This is Necessary

A cold, a strain, a sudden wrench, A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A splendid remedy for such attacks A medicine that has satisfied thousands,

Is Doan's Kidney Pills, a special kidney remedy. Many Earlinton people rely on it. Here is Earlinton proof.

Mrs. Henry Clay Smith, Earlinton, Ky., says: "You may use my statements as heretofore recommending Doan's Kidney Pills. Whenever we have occasion to use them in our family, the results are fine."

Mrs. Smith is only one of many Earlinton people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Smith had—the remedy backed by home testimony. 50c at stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

ALFALFA CROPS IN KENTUCKY
ATTRACTING MUCH ATTENTION

Number of Growers Fast Increasing As Its Feeding Value Is Realized—William Givens Relates His Experience in Raising Alfalfa for Live Stock Feeders

(H. B. Hendrick, Department of Agronomy, Kentucky Experiment Station.)

Illustration showing an alfalfa field shocked and capped after harvest.

Alfalfa is a crop much discussed by the farmers of Kentucky at the present time. Its great feeding value, closely approximating wheat bran, for ton, is fast coming to be appreciated, and the number of farmers attempting to grow alfalfa is fast increasing. This is a good sign, for there can be little doubt but that alfalfa can be successfully grown on fifty per cent of the farm lands of our state when its requirements are fully understood and are furnished at the hands of experienced growers. Many attempts to grow this valuable legume fail because farmers start with a large acreage and, failing to comply with one or more of the requirements of the plant, get poor results, count the cost, and thus become discouraged and render the verdict that it can not be done in Kentucky. It is the firm belief of the writer that the farmer inexperienced with alfalfa should begin with a small acreage, putting foremost the idea of learning to grow the crop, sticking to it each year until complete success is attained, and then introducing alfalfa into the regular cropping system of the farm.

Mr. Wm. Givens, whose experience is here given, started by learning how. He owns a farm of 400 acres, four miles south from Danville, in the southern part of the blue-grass region, that section called "The Knobs." Mr. Givens practices general farming.

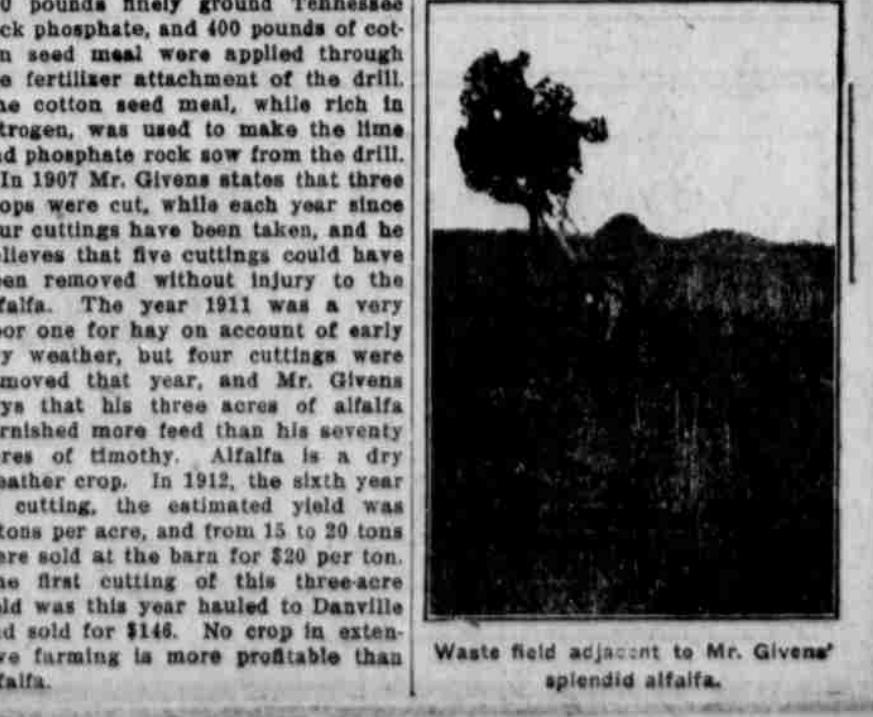

Liming and Inoculation Necessary.

The interest of Mr. Givens in alfalfa grew from reading in agricultural journals the value of this crop to live stock feeders. In 1907 he selected three acres from his cattle feed lot and plowed and prepared the seed bed just before the time for sowing. The field was well drained and, of course, rich in humus. The seed was sown in August after being inoculated with bacterial culture furnished by the United States Department of Agriculture. In the spring of 1908, just before the first cutting, Mr. Givens noticed that the alfalfa was turning yellow. Immediately after cutting, the ground was disked and 600 pounds of slaked lime, 400 pounds finely ground Tennessee rock phosphate, and 400 pounds of cotton seed meal were applied through the fertilizer attachment of the drill. The cotton seed meal, while rich in nitrogen, was used to make the lime and phosphate rock sow from the drill. In 1907 Mr. Givens states that three crops were cut, while each year since four cuttings have been taken, and he believes that five cuttings could have been removed without injury to the alfalfa. The year 1911 was a very poor one for hay on account of early dry weather, but four cuttings were removed that year, and Mr. Givens says that his three acres of alfalfa furnished more feed than his seventy acres of timothy. Alfalfa is a dry weather crop. In 1912, the sixth year of cutting, the estimated yield was 8 tons per acre, and from 15 to 20 tons were sold at the barn for \$20 per ton. The first cutting of this three-acre field was this year hauled to Danville and sold for \$146. No crop in extensive farming is more profitable than alfalfa.

This illustration shows a Kentucky alfalfa field before cutting.

After some years of experience with the three-acre field, Mr. Givens decided to grow alfalfa more extensively, and in the latter part of August, 1912, following a wheat crop, he prepared the land and sowed twenty-six acres. In this case 1,000 pounds per acre of rock phosphate was turned under, then 1,500 pounds of ground limestone per acre was applied and worked into the soil. The inoculation was this time effected by using about 150 pounds per acre of soil from the old alfalfa field. After inoculation, the seed bed was made very fine and firm, then 20 pounds of seed per acre was sown and covered only about one-half an inch. Small seeds are often covered too deeply. The writer visited this field May 15, 1913, and saw a beautiful and valuable crop of alfalfa.

Waste field adjacent to Mr. Givens' splendid alfalfa.
